MONEY, STOCKS AND GRAIN

Decline Ranging from 1 to 161 Points Brought About in the Share List.

Wall Street Bears Make Repeated Successful Raids on the Stock Exchange-Indianapolis Cereals Remain Depressed.

THE BOND MARKET.

Railway Issues Heavier at First, Close Firmer on Sales of \$1,052,000. At New York, yesterday, money on call was easy at 3 to 6 per cent., the last loan being made at 3, closing offered at 3.

Prime mercantile paper, 8@12 per cent. Sterling exchange was weak, with actual business in bankers' bills at \$1.824 @4.8212 for sixty days, and \$4.834 @4.84 for de-

Silver certificates were neglected, not a transaction being reported at the Stock Exchange. The close was at 70% bid, 72 asked. London bar silver quoted at 8id.

The New York stock market opened at an advance of 4 @24 per cent. on the closing quotations of Tuesday in sympathy with a sharp rise in prices in London. The foreigners sent buying orders, but as soon as these were executed the bears made a fierce raid, and assisted by advices of the renewal of the bank trouble in Denver and vague rumors of trouble in St. Louis, they speedily brought about a decline of 1 to 164 points, the latter in General Electric, which touched 514. At about this time some of the bears covered freely and a rally ensued, but still later there was a renewed spell of weakness and several stocks broke badly. The decline was the result of a concerted attack by the room traders, who made a determined effort to catch stop orders to a degree. National Starch second preferred dropped 8 to 23; Northern Pacific preferred, 634 to 19; Rock Island, 514 to 56%, and Distillers', 5% to 17%c. Among the specialties Pullman yielded 9 to 150 and Evansville, & Terre Haute, 5 to 129. After delivery hour, when it was found that there were no local firms in trouble, a recovery of 1/2 to 21/4 took place, but finally the advance was partially lost. Nevertheless in a number of metances closing quotations were 12 to 234 per cent. above those of yesterday. At one time it was reported that the Northern Pacific company was in imminent danger of a receivership, but this was promptly and emphatically denied by leading officials of the road. The buying of stocks for investment on a larger scale than of late and shares having an international mortgage were strengthened by the purchases for London account. Speculation left off steadier in tone.

Railway and miscellaneous bonds were heavy in the early dealings, but closed firmer. The sales were \$1,052,000, against \$823,000 yesterday. Ohio Southern firsts fell 5, to 100; Peoria & Eastern incomes, 2. Government bonds were weak. State bonds were dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE. Little to Note in the Business Situation,

with Prices Generally Steady. Wholesale streets are the picture of dullness, and little improvement is looked for until next month. Fluctuations are few. The stronger tone to provisions is quite a surprise, as the receipts of hogs are on the increase. Staple groceries are in strong | \$28.50. Extra charge for printing. pesition. Coming to Commission row matters are somewhat mixed. Tomatoes and bananss are in large supply and weak, unless of choice stock. Irish potatoes are not in large supply, consequently prices are well held. Cherries and currents are that berries of all kinds are unusually high. Some very fair apples and peaches

were offered yesterday at prices, however, still a little stiff. Melons were never more plenty, and never of better quality. The local grain market is not as active as usual. The new wheat crop is not moving as in past years. Prices are low, and receipts of other cereals are not large. Track bids yesterday ruled as follows:

WHEAT IS STILL TUMBLING

Another Slice Off the Price of September, that Month Touching 65 1-8c.

Low Record Again Broken, the Slump Being the Natural Result of Western Bank Failures and Depression in New York.

TRADING AT CHICAGO.

Corn and Oats Declined, While Provisions Were Weak All Day.

CHICAGO, July 19 .- Wheat went to smash worse than ever to-day. There was a break of over 2c a bushel in the December option. During the last hour a general panic seemed to take possession of the owners of grain, and especially of wheat, and there was a mad rush to sell, which sent September to 65 sc and December to 62c, breaking the low price records anew for September. The many failures in Denver and a fresh break in stocks were the moving factors, and demoralized everybody, apparently, though there was some reaction in the last few minutes. At the close July, compared with yesterday's final quotations, was 1c lower; September was off 14c, and December 14c. Corn lost 4c; oats, le for July and %c for September. Provisions are .10c lower for September and October ribs. Pork is unchanged, and September lard gained .0240.

From the outset the financial situation exerted a depressing influence on the wheat pit and brought in many selling orders. First prices were at a decline of 4@1c. A small local failure, T. M. Sweezey, increased the depression. After the selling out of his long stuff the feeling grew temporarily better. Stocks were stronger for the moment, and the feeling in London was said to have improved, and there was liberal covering by shorts and brisk investment buying, which gradually caused a recovery of nearly three-iourths of a cent. McPharan and Martin, Orr. Kennett-Hopkins and Schwartz-Dupee led the buying, and for a considerable time the market had a rather encouraging look. Then came the announcement that big banks at Denver, which had successfully withstood the run yesterday, had finally closed and prices again turned weak. The market was full of apprehension and of the longs, while expressing confidence in ultimately better prices, few had the courage to buy. The scare was so great that the export clearances of \$50,000 bushels of wheat and flour, including New Orleans, and the decrease of 2,750,000 bushels in available wheat by Bradstreet's was almost entirely lost

Corn opened a trifle easier, but soon recovered and advanced 3sc, again eased off, ruled weak, selling off in all 100 %c, and at the close was 40 4c lower. The business was largely local and the early demand contined to shorts, who were inclined to cover, as the market had steadily declined all the week and a reaction seemed possible. The favorable crop reports did not appear to cut much of a figure. The market held fairly steady until the receipts for to-morrow came in at 500 cars, which started room traders to selling, led by one of the prominent shipping concerns. It was at this time, too, that the news of additional bank failures came in with reports of the slump in Wall street.

Oats were weak in sympathy with wheat and corn, and on the absence of good buying orders and an increased pressure to sell prices declined 4@10 on the near deliveries, and the market closed easy at the bottom. News from abroad was bullish, the Austrian crop being reported short and prices higher.

The feature in provisions was the support in September lard which was again pegged. This time Parker did the buying around 9.70c and took several thousand tierces around that price, supposed to be for John Cudahy. At the same time Octoper lard was forced lower until the discount at one time was 1.021/2c.

Lake rates were firm with light offerings and a good demand at 14 @1 sc on wheat and 14@1%c on corn to Buffalo; 140 on corn to Port Huron and 3e for wheat to Kingston. Estimated receipts for to-morrow are: Wheat, 86 cars; corn, 500 cars; oats, 2.0 cars; hogs, 25,000. The leading futures ranged as follows:

MINNEAPOLIS, July 19.—There was considerable activity in wheat to-day, but it was made on the wrong side. There was a general effort to sell on a decline that carried prices lower than yesterday. The opening was low, and after a slight rally in the middle of the session there was a second slump that held until nearly the close, when some active buying turned the scale for a little advance. The market was induenced almost entirely by the news from Denver of further financial trouble. Cash wheat was easier, millers being a little slow to buy at the top prices asked. No. 1 Northern sold principally at 60c. Receipts, 174 cars here and 47 cars at Duluth and Superior. Closing-July opened at 58c, closing at 574c; August, 584c; September opened at 61%c, closing, 61c; December opened at 67% c. closing, 67%c. Philadelphia Press. "Don't say anything about the tariff," is the cry of certain free-trade newspapers. adding, "let us put all the blame on silver." But the tariff will not down. We had the silver question a year ago, and have bad it for three years, and yet the country, until recently, was prosperous to a high degree. Now we have got the tariff question, and there is all the difference in the world. Mills are closing up, ten thousand men have been thrown out of employment in the Northwestern iron mines, lake vessels are tying up and disaster is everywhere. Silver has something to do with it, but the specter of free trade a hunered times more.

A free application of soap to a fresh burn almost instantly removes the fire from the flesh. If the injury is very severe, as soon as the pain ceases apply linseed oil and then dust over with fine flour. When this covering dries hard, repeat the oil and flour dressing till a good coating is obtained. When the latter dries, allow it to stand until it cracks and talls off, as it will do in a day or two, and a new skin will be found to have been formed where the skin was

THE

JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still through and I carload for sale. Market | further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of moraing trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana interests.

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-

cation. Send for sample copies of Daily. Sunday and Weekly issues.
